Indicator light description

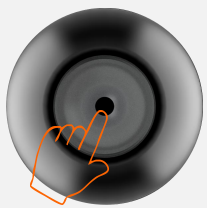

Power-on standby: Red and blue lights flash alternately slowly
Connected to APP: Blue light stays on
Noise reduction on & recording: Red light flashes slowly a few times then turns off
Recording paused: Red light stays on
Recording saved: Red light flashes once
LED switch on APP: Whether the indicator light stays on during recording
Charging: Red light flashes quickly
Fully charged: Blue light stays on

Charge

Use a power adapter with a charging current of 1A or less for charging. Otherwise, it may damage the device or cause hazards. During charging, the recorder flashes a red light; when fully charged, the recorder stays on with a blue light.

If the product is not used for a long time, charge and discharge it at least once every three months to prevent battery damage.

Reset

When unable to use normally,
press and hold for 15 seconds to reset.
